Thank you for your interest in sponsoring the 2026 ASF Research Symposium and Family Conference benefiting Angelman syndrome (AS). Sponsoring this signature event will be the most rewarding decision you have made this year. There will be more smiles and love during this gathering than you can possibly imagine.

#### Mission

The mission of Angelman Syndrome Foundation is to advance the awareness and treatment of Angelman syndrome through education and information, research, and support for individuals with Angelman syndrome, their families, and other concerned parties. We exist to give all of them a reason to smile, with the ultimate goal of finding a cure.

#### **About the ASF Research Symposium**

The ASF Research Symposium is a *closed-door* gathering of leading experts, researchers, and clinicians focused on Angelman syndrome and related neurodevelopmental disorders. This unique event provides a collaborative space to share current and unpublished research, engage in big-picture discussions, and strategize paths toward effective treatments. United by diverse perspectives, participants help shape the future of scientific progress and therapeutic breakthroughs by uniting diverse perspectives and deep expertise.

#### **About the ASF Family Conference**

Since 1991, the Angelman Syndrome Foundation has hosted 18 Family Conferences, bringing together individuals with Angelman syndrome, their families, caregivers, and experts from around the world. This unique event offers educational sessions, therapeutic strategies, and practical guidance while fostering deep connections among attendees. More than just a conference, it's a powerful gathering of community, collaboration, and support.

#### **About Angelman Syndrome**

Angelman syndrome is a rare neurogenetic disorder that occurs in one in 15,000 live births. AS is often misdiagnosed as cerebral palsy or autism due to a lack of awareness. Characteristics of the disorder include developmental delay, lack of speech, seizures, life-long behavioral and GI issues, and walking and balance disorders. Individuals with AS will require lifelong care.

#### **Attendee Demographics**

Individuals with AS • Family Members • Physicians • Researchers • Educational Professionals • Therapists • Support Workers • Anyone with an interest in improving the lives of individuals with AS

## LOGO INCORPORATION

To ensure that your logo appears in the best possible quality on all promotional materials, please follow these guidelines when submitting your logo:

#### **Preferred Logo Format**

- Vector Format:
- File type: .EPS (Encapsulated PostScript) or .AI (Adobe Illustrator)
- Vector logos ensure scalability without any loss of quality and are ideal for both print and digital use.

#### Alternative Format (if vector files are unavailable)

- High-Resolution Raster Format:
- File type: .PNG or .JPEG
- Minimum resolution: 300 DPI (dots per inch)
- Image size: At least 2000 pixels wide

#### **Additional Considerations**

- Transparent Background: Logos with a transparent background (PNG format) are highly preferred for design flexibility.
- File Size: Avoid compressing files too much. Larger, high-quality files are better for printing.
